The aspects of this course I valued most were: *General intro to biology -*

Improvements to the course (if any) should include:

*more hands-on or "lab" type work -
perhaps media based materials (video/audio)*

What have you gained from attending this course?

*Understanding and appreciation for biology
as a discipline - also, a better understanding
of scientific methods and living organisms.*

Does this course fit coherently into the collection of courses you are taking to pursue your college degree?

Yes - general knowledge

Additional comments about the course or the instructor (your comments may remain anonymous):

*Instructors (and TA) were informed and very
helpful - they refused to lower their standards
which is only beneficial to all of us - they dealt
with some of the more difficult students with grace!*

Improvements to the course (if any) should include: *spend a little time covering how to read chemical notations (NaCl, H₂O, etc) this confused some. That way when they are encountered later they are understood.*

What have you gained from attending this course?

a better understanding of cells, how they function, and species dispersion.

Does this course fit coherently into the collection of courses you are taking to pursue your college degree?

Additional comments about the course or the instructor (your comments may remain anonymous):

They worked very hard to provide a positive environment to learn in and they obviously cared how each student was progressing.

Additional comments about the prison education program (your comments may remain anonymous):

This was my first semester here. So far it is going well. I'd have to participate in a semester or two before commenting.

The aspects of this course I valued most were:

I gained a general knowledge of Biology that I can use in other courses and random "watercooler" talk info.

Improvements to the course (if any) should include:

I know the ~~time~~ in 3 hour classes in this program is not a normal class time, but 2 hours plus of lecturing is a little overwhelming and hard to hold on to.

What have you gained from attending this course?

Does this course fit coherently into the collection of courses you are taking to pursue your college degree?

Yes.

Additional comments about the course or the instructor (your comments may remain anonymous):

Overall I think the instructors did a good job of organizing the material. I know there is a lot of information and it was generally organized well.
